Motivated statement in respect of the proposal for Board of Directors

The Nomination Committee has received information regarding an evaluation of the current Board of Directors and the work of the Board of Directors. Like in previous years, the evaluation shows that the work of the Board of Directors during the past year has functioned well. The Nomination Committee has discussed issues regarding the number of Board members, the composition of the Board, diversity in respect of for example competence, industry experience, age and gender equality.

In the course of its work the Nomination Committee has applied Rule 4.1 of the Swedish Corporate Governance Code as its diversity policy. This policy entails that the Board shall have, with regards to the company's operations, phase of development and other relevant circumstances, an appropriate composition characterized by diversity and breadth of qualifications as regards the elected Board members' competence, experience and background and further that gender balance shall be strived for.

The current Board of Directors is functioning well, and it is the assessment of the Nomination Committee, in consideration of the company's activities, financial position and other conditions, that the proposed Board is appropriately composed to meet the requirements that the company's activities bring. The Nomination Committee has thereby considered the company's strategic development, governance and control, diversity policy and gender equality and the requirements that these factors bring in respect of the Board's competence and composition.

Considering the above, the Nomination Committee proposes re-election of the current Board members.

The Nomination Committee consider the proposed members of the Board of Directors as very well suited for the Board work in Bilia during the forthcoming term of mandate, collectively as well as on an individual basis. The Nomination Committee deems that the proposed Board composition in Bilia fulfils the requirements of the Swedish Corporate Governance Code regarding the number of independent Board members in relation to the company and its management, and in relation the company's major shareholders. A full statement on the dependence or independence of the Board members is available in the company's website.
